## **Detailed Specifications**

### **BOAT HIGHLIGHTS**

MARILEE represents a unique opportunity to own a 1926 Herreshoff NY40 rebuilt/refitted to exacting original standards with both Gaff and Marconi rigs as part of the inventory, loaded with gear and sails and ready for her next life.

The start of the 20th century was fertile ground for U.S. Naval Architects and the most notable was Nathaniel Herreshoff. The New York 40 design class dates to the start of WW1 and was an evolution from larger/heavier Class yachts to promote sailing with smaller crews and allowing better performance. ROWDY, CHINOOK, RIGOSA, and MARILEE make up the last of this esteemed class.

MARILEE was purchased in 2014 with the ambition of rebuilding the yacht in Maine at French & Webb custom boat builders who are arguably the top wooded boat craftsman in the U.S. MARILEE was completely rebuilt taking great care to keep to the original designs at every step. A relaxed, stylish and very high quality interior was designed, built and installed. The results are stunning. MARILEE was originally designed as a gaff rigged sloop but later NY40 versions included Marconi rigged sloops as well and she is now equipped with interchangeable gaff and Marconi rigs.

Every inch of MARILEE was painstakingly brought back to original designs, new rig and rigging installed, New teak decks, new sails purchased, all new systems installed... and she is therefore now a virtually new classic 1926 yacht ready for the next 100 years!

The rebuild is beautifully chronicled in a full length movie by Allison Langley as well as the fabulous website [MARILEENY40.COM](http://MARILEENY40.COM)
