Description

SELLING AT AUCTION

In partnership with Boathouse Auctions, the 103' West Bay motoryacht PICOSA LADY is offered at auction with no reserve and will be sold to the highest bidder.

The official viewing period opens October 9, 2026, giving prospective bidders the opportunity to inspect the yacht in person and complete due diligence before the auction.

Live online bidding will take place November 11, 2026.

Full auction details, marine and mechanical surveys, etc., can be found at the Boathouse Auctions website.

TO REGISTER TO BID:

1. Visit the auction page via Boathouse Auctions website.
2. Click the yellow "Register to Bid" button.
3. Wire the \$75,000 bidder deposit.

Picosa Lady is a 103' West Bay SonShip semi-displacement motor yacht designed by Jack Sarin with interiors by Glade Johnson. Her 24-foot beam creates impressive interior volume and generous exterior living spaces, while her four-stateroom layout accommodates eight guests in comfort. An extra-large aft deck with walk-up bar, spiral staircase to the flybridge and dual stairways to the swim platform enhances the yacht's outdoor living and circulation. Substantial Northwest craftsmanship and a practical cruising layout give her the feel of a much larger yacht, while her hull design provides excellent seakeeping ability and a shallow draft.

The yacht is arranged for both entertaining and extended time aboard, with a full-beam salon, formal dining for eight, an outstanding country kitchen, large aft deck, spacious flybridge and sundeck, and a substantial swim platform.

Engines / Generators

Engine 1: MTU | 16V 2000 M90 | 1350HP | Diesel | Hours: 6950

Engine 2: MTU | 16V 2000 M90 | 1350HP | Diesel | Hours: 6950

Features

Guest Accommodations

Picosa Lady accommodates eight owners and guests in four ensuite staterooms, one king, two queen, and one with twin berths. The full-beam master features a his-and-hers head arrangement with a double-entry steam shower. Forward, the VIP guest stateroom is especially inviting, with beautifully executed stone finishes adding to the level of detail and quality throughout. All guest heads are appointed with marble and enclosed showers, complemented by custom linens and extensive Northwestern carpentry.

Salon & Dining

The full-beam salon offers a comfortable and welcoming main living space with generous seating, a coffee table, pocket television and formal dining for eight. A Corian service counter provides additional storage along with an ice maker, mini refrigerator and service center. Deck-level entry and an adjacent day head make the salon equally practical for everyday use and entertaining.

Country Kitchen / Galley

One of Picos Lady's standout spaces is her expansive country kitchen. The open layout features curved upholstered seating, six large windows for natural light, exceptionally generous Corian countertops and a raised bar that creates additional casual dining and gathering space.

The galley is equipped with side-by-side full-size Fisher & Paykel refrigerator/freezers, a Wolf stainless-steel oven, Hestan five-burner induction cooktop, Miele dishwasher, microwave, Kruser trash compactor, InSinkErator Evolution Supreme stainless-steel garbage disposal, stainless-steel sink and Samsung television. It is also partially outfitted with cooking tools, appliances and accessories for life aboard.

Wheelhouse

The wheelhouse includes a dedicated helm station with seating, three 17-inch LCD display monitors, Ritchie electric compass, horn and windshield wipers. New wheelhouse windows were installed in October 2025.

Exterior

Exterior access is thoughtfully arranged along the side decks leading forward, with retractable cleats, recessed overhead stainless-steel grab rails, substantial stainless-steel loop rails, large windows, side-door access and a boarding ladder. Teak decking adds warmth and continuity throughout the exterior spaces.

A full-size transom door leads to the large swim platform, which includes lazarette access and stainless-steel rail arrangements designed for hanging or securing Seabobs. Twin stairways connect the transom and aft-deck areas, creating practical movement between the water and main entertaining level.

GROUND TACKLE: Pair of 250 lb. bow anchors, each on an individual Maxwell windlass.

Aft Deck

The large aft deck is designed for entertaining, with two separate seating arrangements comfortably accommodating eight guests. An exterior bar includes a sink, Costway ice maker and mini refrigerator, while a television, overhead lighting and Isinglass weather protection extend the usefulness of the space. A spiral staircase provides direct access to the flybridge.

Flybridge / Sun Deck

An impressive raised flybridge helm is flanked by three full-size STIDD captain's chairs with footrests. Helm equipment includes two 16" displays, Furuno digital radar, Simrad autopilot, dual MTU engine displays, two Icom VHF radios, aft spotlight control and a 40" stainless-steel destroyer-style helm wheel. Port and starboard wing stations provide full engine, rudder and thruster controls for enhanced visibility and maneuverability.

The flybridge and sundeck provide another substantial outdoor living area with table seating for eight, four-person hot tub, a four-stool bar with sink and wine cooler, two Frigibar chest freezers and a MAXX Ice high-capacity ice maker. A hardtop and optional extended soft-top Bimini provide shade for the four-person hot tub.

A 2,500-lb MarQuipt tender crane serves the 19' Zodiac RIB with a 115 hp Yamaha outboard.

Crew Accommodations

Separate crew accommodations include two ensuite cabins for up to four crew, with one queen berth and three twin berths. The crew area includes enclosed showers, a full-size Samsung refrigerator/freezer, kitchenette with sink, Whirlpool washing machine and Electrolux dryer.
